3.0--School Plan of Operation

3.1--**Causes/Solutions** Reviewed last week's generated list as
causes. Discussed possible solutions should align to the causes.

Top problems/causes:

Fixed Mindset--

Problem Solving--

Attendance--

Parent Involvement

Solutions: PD on Growth Mindset-

Structures:

Trained teachers provide training. For example: using common language (articles, theory, growth mindset, and what it looks like)

Students—Observe other students modeling the growth mindset and/or good habits. Tie in the data folder discussions to support the growth mindset. Possibly give each teacher, grade level, or school two options for tracking growth/keeping data binders.

Class meetings—Discussions about growth mindset and the Essential 15. (10 or 15 minutes=length of meeting)

Observing another teacher-Walk-throughs

Incorporating Data Folders-Set goals for reading/math

Parent Involvement: More involvement: Possible ideas for communication and invitations:

Class Dojo: Incorporate videos to teach parents. Use of technology to provide parents with information/PD.

Class Dojo: Parent Communication is the primary

Spanish Dojo: Ask McTyer about spanish

Behaviors: Consistent Expectations and Consequence, Understanding the Students, Essential 15?, Structures for Tier II & Tier III, and Progressive Discipline.
